
	Weather Forecast Division Thai Meteorological Department	Medium Range Forecasts Weather Outlook During 8 – 14 Oct 2025	
<p>Weather Forecast: During 9 – 14 Oct, the monsoon trough will lie across the lower Central, the East and the upper South while the southwest monsoon still prevails over the Andaman Sea, the South and the Gulf. At the same time, the easterly wind will prevail over the North and the Northeast. Less rains and isolated thundershowers are likely in the North and the Northeast while more rains and isolated heavy rains are possible in the Central, Bangkok and vicinity including the East and the South regions.</p> <p>The wind and waves in the Andaman Sea and the Gulf are expected about 1 meter high and above 2 meters high in thundershowers throughout the period.</p>			
<p>Warning: During 9 - 14 Oct, people in the lower Central, the East and the South should beware of heavy rain and accumulation that may cause flash floods and overflows especially along the waterways near foothills and lowlands.</p>			
<p>The weather forecast is valid from Wednesday this week until Tuesday next week</p>
