

Weather Forecast: The heat low-pressure cell covers upper Thailand with hot to very hot and haze during the day over the upper country. Meanwhile, the weak southerly and westerly winds prevail over upper Thailand with isolated thundershowers and gust wind **throughout the period**.

For the South, the westerly wind will prevail over the Andaman Sea, the South and the Gulf with isolated thundershowers and hot during the day. The weak winds and waves in the Gulf and the Andaman Sea are expected about 1 meter high and above 1 meter high in thundershowers **throughout the period**.

Warning: People in the country should keep healthy due to hot to very hot weather and beware of severe conditions with gusty wind. All ships in the Gulf and the Andaman Sea should keep off thundershowers **throughout the period**. People over the North, the Northeast and the upper Central should be advised to avoid staying in open areas and to wear N95 masks for safety when outdoors.
