Daily Weather Forecast Distribution

Sunday 15 February 2026

Issued at 2300 LST

General Situation

The weak high-pressure system covers the North, the Northeast and the South China Sea with morning fog. Morning cool is forecast in the North and the Northeast regions while isolated thundershower is forecast in the Central including Bangkok and its vicinity and the East regions. People in the upper country should keep healthy due changeable weather and all transport take more caution in poor visibility.

The easterly and the southeasterly winds prevail over the Gulf and the South while the northeast monsoon prevails over the Gulf, the South and the Andaman Sea with more rain in the South. The winds and waves in the lower Gulf are expected 1-2 meters high and above 2 meters high in thundershowers. All ships in the Gulf and the Andaman Sea should proceed with caution and keep off thundershowers.
